

SAMSUNG

Samsung Digital Photo Frame

Samsung Digital Photo Frame SPF-72H/SPF-72V represent a new concept in multimedia solutions.

It's a picture frame that lets you enjoy vibrant digital images, without turning on a PC or printing out photos.

Share memorable moments even with family and friends far away. The Wireless Networking function allows you to transfer digital images edited and stored on the internet to the Digital Photo Frame.

Share photos with Windows Vista via Wi-Fi

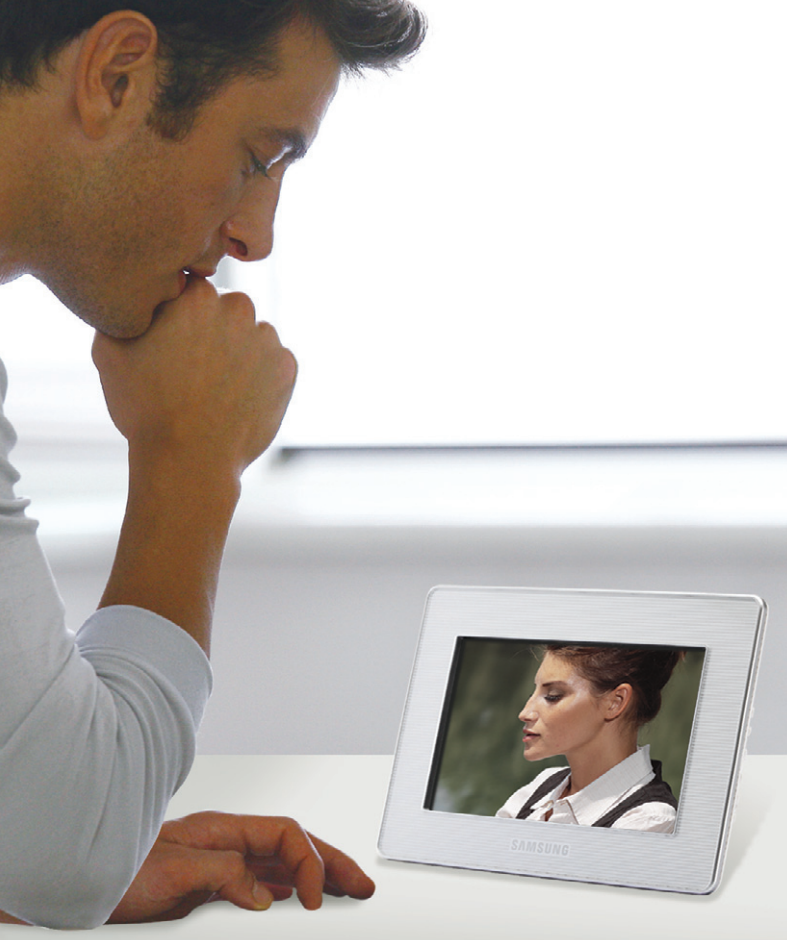

Share it easily!

You can enjoy your digital photos away from your computer. SPF-72V offers a great experience when teamed with Windows Media Player 11 and Windows Photo Gallery, helping you stay connected with your digital photos no matter where you are.

Simply connect the frame to your wireless network and you can view photos on the web around the world without a computer. Just put the address of Windows Live Space or other photo Blog websites which support RSS feeds. Through SPF-72V, you are connected to live data that can be updated instantly. Photos added to an internet site will automatically be added to the frame.

"I'm looking at the photos you took today with your digital camera. It feels like you're right beside me."

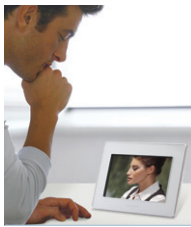

"I'm looking at the pictures from our last trip. It's like reliving those fun moments."

"Looking at my grandchildren far away cheers me up everyday."

"Our precious baby. Pictures of you growing up are a source of joy for your mom and dad."

Samsung Digital Photo Frame **SPF-72H/SPF-72V**

Elegant Photo Frame

Capturing everyone's fancy with its elegant design!

With its simple yet sophisticated design, the rounded frame stands out in any setting.

Sophisticated and modern with rounded corners

Sleek design featuring a stylish silver frame

Rotable stand allows for horizontal or vertical frame

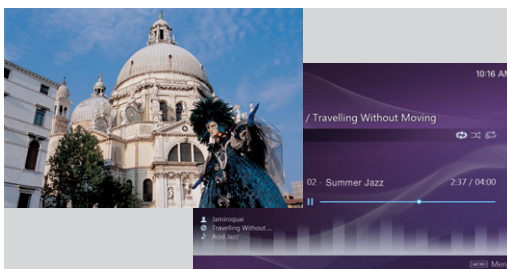

Kensington Lock for anti-theft

Samsung Digital Photo Frame **SPF-72H/SPF-72V**

Sensational Photo Frame

Enjoy moving images as well as music!

MP3 and video playback function

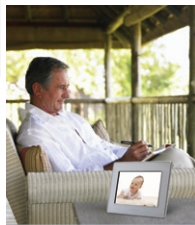

Samsung Digital Photo Frame SPF-72V plays not only photos, but also supports MP3 and video files.

Enjoy a wide range of digital contents, from music via the embedded speaker or videos on the 7-inch screen.

Vibrant images with 7-inch high-definition TFT LCD

The 7-inch TFT LCD (800 x 480) screen and brightness of 200 cd/m² bring life to digital images.

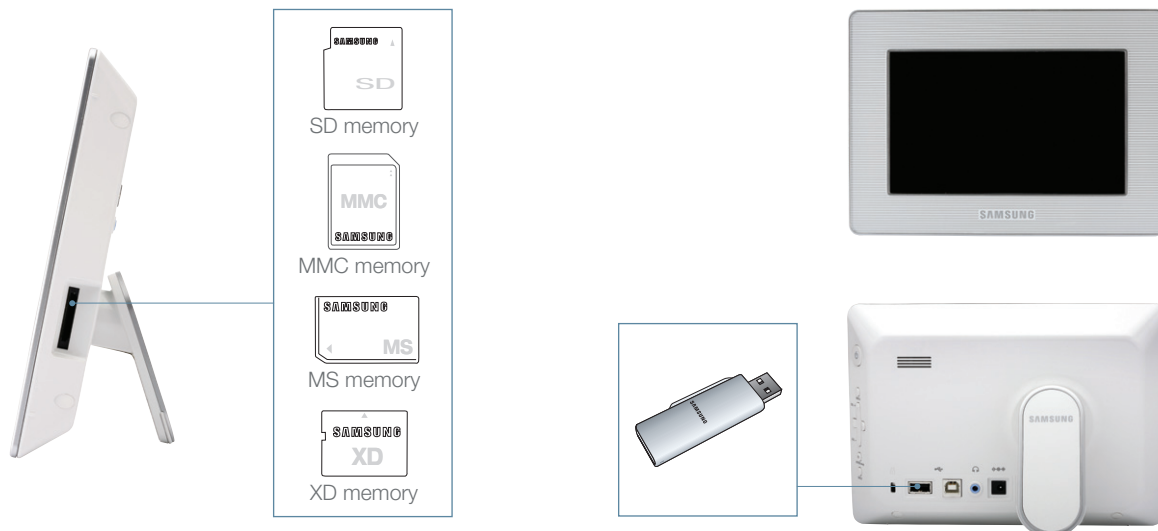

Convenient Photo Frame

Samsung Digital Photo Frame **SPF-72H/SPF-72V**

Supporting various external memory devices for your convenience!

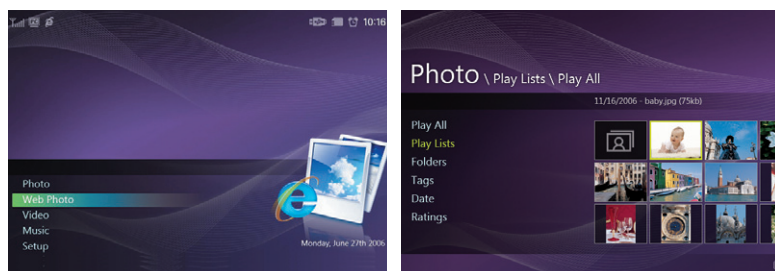

The Samsung Digital Photo Frame SPF-72H/SPF-72V supports 4 in 1 (SD, MMC, MS, XD) and USB connection, enabling transfer of photos from your digital camera and PC. Once the memory device is connected, the slideshow function automatically displays images without having to click on any key.

User-friendly Photo Frame

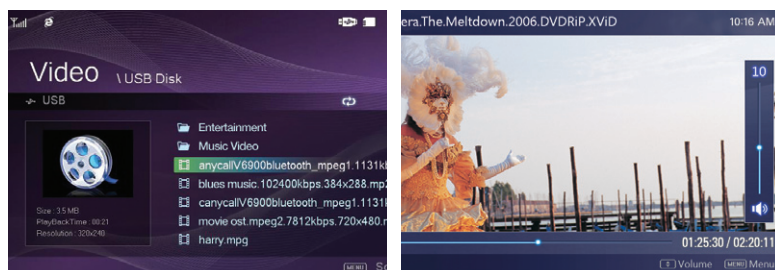

Samsung Digital Photo Frame **SPF-72H/SPF-72V**

A user-friendly device that's simple to operate!

Easy user environment

Anyone can master the Samsung Digital Photo Frame SPF-72H/SPF-72V. Operating instructions are straightforward and explained with the use of graphics. Even parents not familiar with the PC will find it a breeze.

Simple list navigation function

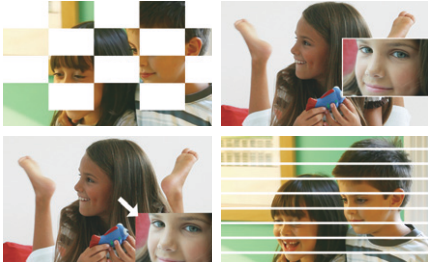

Intuitive and simple list navigation simultaneously classifies files by storage medium and content type. You can even look up the list while a slideshow is in play.

Versatile Photo Frame

Samsung Photo Frame **SPF-72H/SPF-72V**

Countless enjoyment with the slideshow function!

Add in effects for diverse slideshows

Apply various effects when moving from one picture to another. A wide range of options are available including fade, chessboard pattern, blind, wipe, shift and et cetera.

Enhance slideshows with background music

For an even richer experience, select tunes from MP3 files in a storage device and designate it as the background music for your slideshow. (SPF-72V)

Convenient slideshow function

A choice of five playback speeds is available for slideshows. The setting can be changed even while using the navigation and during slideshows.

Simple Photo Frame

Samsung Digital Photo Frame **SPF-72H/SPF-72V**

Effortless alarm function and product upgrades!

SPF-72V

Handy clock function

Check the time even while images are being displayed. Offering a full-screen display and alarm function, the Photo Frame can serve as a desktop clock.

Direct connection to MP3 player and PMP

Play back music and moving images without transferring or saving files by connecting an MP3 player or PMP to SPF-72V via the USB port. View pictures on a big screen and enjoy music without the use of earphones.

Memory card reader function

SPF-72V also functions as an external memory card reader. Just connect it to your PC with the provided USB cable. Use SPF-72V to save files from a memory card to a PC or vice versa.
